

The Automatic Replacement Program offers a no-hassle, automatic way to get your recommended CPAP supplies.

It is recommended to replace the following supplies every 3 months:

- (1) Mask interface including one cushion, headgear and frame
- (2) Mask cushions/pillows
- (1) Tubing
- (6) Disposable filters (thin)
- (1) *Non-disposable filter (1" thick) **when applicable*

As a member of our Automatic Replacement Program you can expect to receive an email with tracking information once your order has been processed and shipped.

You may opt out of the Automatic Replacement Program at any time.

*Note that you may not be eligible to receive all items through your insurance at the time of re-order as not all policies follow the same replacement schedule. Unless otherwise instructed, we will only process items for which you are eligible. Ineligible items may be purchased at self-pay rates with your prior approval.

*Some insurance policies do not allow for you to be enrolled in our Automatic Replacement Program. Please contact us directly for your specific policy details.
