The ResMed AirTouch™ N30i

Live life in high Res

AirTouch™
N30i

Meet the ResMed AirTouch™ N30i

Introduce your patients to an exceptionally comfortable tube-up nasal mask: the ResMed AirTouch™ N30i. The brand-new ComfiSoft™ cushion combines the reliable seal and durability of silicone with the natural comfort only fabric can bring. Both the cushion and the flexible SpringFit™ frame automatically contour to the shape of the face and nose, and are designed to gently make compliance so much more achievable.

Quick-release elbow
Allows patients to easily disconnect and reconnect mask from tubing.

Tube-up mask design
Takes air tubing out of the way to give patients the freedom to sleep in any position.

Fabric-wrapped SpringFit™ frame
The self-adjusting silicone tubular frame is fully wrapped in super soft, breathable, moisture-wicking fabric that's light, gentle on the face and keeps skin cool.
Available in two sizes and designed to easily adjust to different facial profiles and head shapes for an accurate fit the first time.

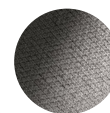

Easy-to-adjust headgear
Shaped to sit comfortably at the back of the head ① with side tabs ② ③ designed to get the fit just right.

Fabric and silicone seal technology
Designed to maximize comfort without compromising seal performance.

ComfiSoft™ cushion
Fabric fused with silicone creates a cushion seal that's soft, breathable and moisture-wicking.

Cushion back

Cushion innovation
Soft fabric covers nearly all of the nasal area for ultimate skin comfort.

Nasal cradle design
Available in three sizes to cover 97% fit range.¹ The curved design contours to the patient's nose for a secure and comfortable seal all night.

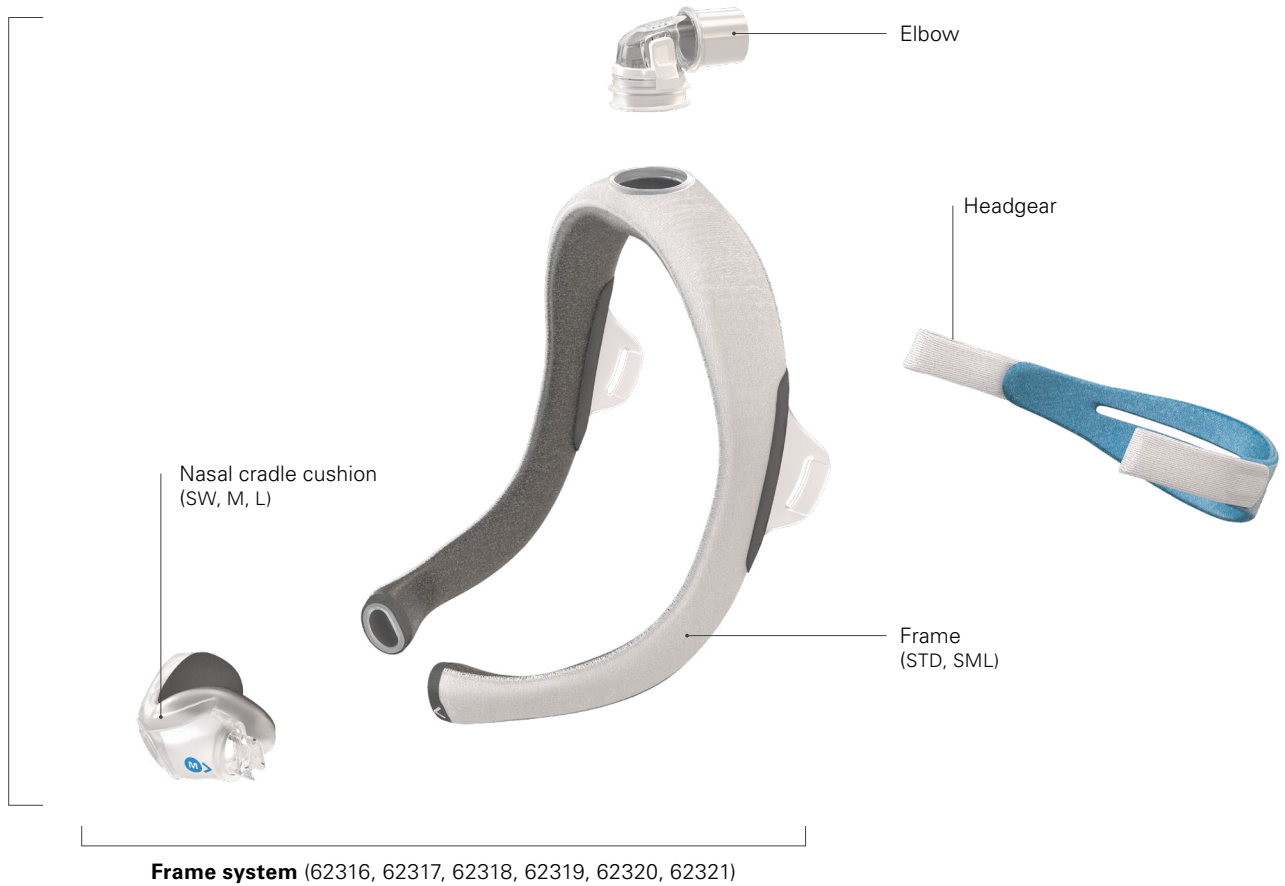

Cushion front

QuietAir™ diffused vent
Designed to be quieter than a whisper while minimizing breeze for both patients and bed partners.

AirTouch™ **N30i**

How to fit the AirTouch N30i

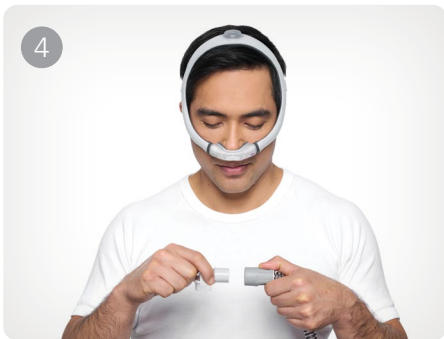

1 Pull the frame and headgear over the head so the elbow sits on top and the headgear is positioned behind the head.

2 Place the cushion under the nose. Tighten or loosen the headgear until the cushion fits comfortably.

3 Squeeze the side buttons on the elbow and detach it from the frame.

4 Connect the air tubing from the device to the elbow.

5 Reattach the elbow to the frame. The mask is now ready to use.

Wear longer hair over the top of the headgear for the best fit.

Refer to the user guide for further instructions and complete labeling information, including indications, contraindications, warnings and precautions.

Experience the ResMed AirTouch N30i today.

With a flexible, fabric-wrapped frame and our innovative ComfiSoft™ nasal cushion, ResMed's new AirTouch N30i nasal mask is designed to bring you a more natural sleeping experience. Brought to you by the sleep apnea brand most trusted by sleep physicians.²
